What do you do if you have symptoms of COVID? Contact your doctor. If you don't have a doctor, but have insurance, check to see if your insurance has tele-health and see a doctor. If your doctor does not recommend a COVID test but you need one, call the Tiffin Community Health Center, 419.455.8140 and make an appointment.

PCR swab tests may take 4-6 days to return results as they must be sent to a lab and be cultured to test for the virus. Rapid tests have a much shorter return time, but are in short supply. No test is 100% accurate. The test relies on, among other things, the amount of virus in your system at the time of the test. Tests are available at the following locations:

PCR (4-6 day return):

Mercy Health-Tiffin Hospital (with Drs. order)

ProMedica Hospital (with Drs. order)

Tiffin Community Health Center (Tele-health or Dr. on site)

Rapid Test (6-8 hour return):

Urgent Care (Tele-health or Dr. onsite)

CVS

The Public Health Advisory System shows that Seneca County has met 5 of the 7 indicators needed to change the level. Wearing a mask, washing your hands and/or using hand sanitizer and not congregating with friends or family not living in your household is the best way to stem the tide of this virus. This is inconvenient and difficult, but necessary.

The EMA will continue to update our partners on the numbers twice a week on Mondays and Thursdays. Please continue to send your information to be shared with our partners to [jspahr@senecacountyohio.gov](mailto:jspahr@senecacountyohio.gov).
